

Camden Public School Song

On the outskirts of the city is a place we love to be
Where buildings merge with farmlands
And children can run free
We can create our own tomorrow
To be caring, safe and strong
And there's a place for everyone where differences belong

Here at Camden we reach upwards
to achieve our highest goals
In all we say and do
Let's reach out and touch each other's lives
With respect for me and you.

Here in this spreading country we watch the river flow
Ask the questions, find the answers
And feel our friendships grow
We are open wide to learning
In our work and in our play
And amongst the finest citizens we'll take our place some day

Here at Camden we reach upwards
to achieve our highest goals
In all we say and do
Let's reach out and touch each other's lives
With respect for me and you.
